

## PROFESSIONAL INFORMATION

SO

### SCHEDULING STATUS:

### PROPRIETARY NAME AND DOSAGE FORM:

**Anchor Wound Care** topical spray.

### COMPOSITION:

Each spray (0,15 ml) contains: 0,36 mg Wound Care Proprietary Blend (Organic Acid Complex, Ascorbic Acid, Niacinamide and Riboflavin). Purified water is present as inactive ingredient.

**Anchor Wound Care** contains no alcohol or preservatives.

### CATEGORY AND CLASS:

D.34.12. Multiple substance formulation.

### PHARMACOLOGICAL ACTION:

#### Pharmacokinetic properties:

**Anchor Wound Care** consists of a proprietary blend of various organic acids combined with ascorbic acid (vitamin C), riboflavin (vitamin B2) and niacinamide (vitamin B3). Although pharmacokinetic studies on **Anchor Wound Care** as a multiple substance formulation have not been conducted, the active ingredients act locally at the site of application and systemic absorption in significant quantities is not expected.

#### Pharmacodynamic properties:

The mechanism of action of **Anchor Wound Care** is twofold. **Anchor Wound Care** firstly has a bactericidal & fungicidal effect, and secondly supports wound healing by providing important vitamins locally at the site of application.

The proprietary blend of various organic acids acts upon the cellular membrane of fungi and bacteria, altering its permeability and the normal functioning of its associated enzymatic pool causing a final cellular membrane rupture. It interacts exclusively with the cellular membrane and not with the DNA which prevents resistance generation and mutation of the microorganisms.

The beneficial effects of ascorbic acid, riboflavin and niacinamide on skin health and wound healing are well-known. Riboflavin and ascorbic acid are potent antioxidants which contributes to the protection of cells from oxidative stress. Both these vitamins are also involved in tissue formation. Ascorbic acid contributes to normal collagen formation which supports healthy skin. Ascorbic acid also supports the wound healing process. Niacinamide contributes to the maintenance of healthy skin.

### INDICATIONS:

**Anchor Wound Care** consists out of a combination of various organic acids and vitamins which supports and improves the wound healing process and contributes to healthy skin.

### CONTRAINDICATIONS:

**Anchor Wound Care** is contraindicated in:

Patients with a hypersensitivity to any of the ingredients of **Anchor Wound Care** (see "**COMPOSITION**").

### WARNINGS AND SPECIAL PRECAUTIONS:

**Anchor Wound Care** should be used with care in:

Patients suffering from chronic skin conditions

Patients suffering from any condition which compromises the natural wound healing process, e.g. diabetes.

**Anchor Wound Care** should not be applied concomitantly with any other topical medicinal products.

### INTERACTIONS:

**Anchor Wound Care** is indicated for topical use with no systemic absorption of the active ingredients in significant quantities. No interactions are therefore expected.

### HUMAN REPRODUCTION:

The safety and efficacy of **Anchor Wound Care** in pregnancy and lactation has not been established.

### DOSAGE AND DIRECTIONS FOR USE:

Prepare the wound / affected area by cleaning it thoroughly with lukewarm water.

Spray **Anchor Wound Care** sufficiently on the wound / affected area until thoroughly wet. Apply twice per day.

### SIDE EFFECTS:

#### Skin and subcutaneous tissue disorders:

Frequency unknown: Tingling or irritation at the site of application.

### KNOWN SYMPTOMS OF OVERUSE AND PARTICULARS OF ITS TREATMENT:

Excessive use of **Anchor Wound Care** may increase the risk of experiencing side effects (see "**SIDE EFFECTS**"). Symptomatic and supportive treatment is suggested in the case of over usage.

### IDENTIFICATION:

A light lemon coloured, viscous liquid with a slight citric odour.

### PRESENTATION:

A semi-transparent, plastic, metered dose spray bottle containing 200 ml **Anchor Wound Care**.

### STORAGE INSTRUCTIONS:

Store at or below 25 °C in a dry place.  
Protect from light.

KEEP OUT OF REACH OF CHILDREN.

### NAME AND BUSINESS ADDRESS OF APPLICANT:

Anchor Projects Africa NPC  
123 Ouklip Road, Willrowpark, Roodepoort, Gauteng, South Africa, 1724

### DATE OF PUBLICATION OF PROFESSIONAL INFORMATION:

01 January 2024.

### COMPLEMENTARY MEDICINE
